Germes is a leading supplier of spare parts and attachments for special-purpose equipment (all models of excavators from 18 to 550 tons, backhoe loaders, front loaders, bulldozers, dump trucks, hydraulic loaders) all over the world.

We offer a wide range of reliable high-quality spare parts and attachments for all leading manufacturers of special-purpose equipment. We supply undercarriage, consumables (teeth, adapters, cutting edges and blades), construction and mining buckets, gearboxes, truck bodies and much more.

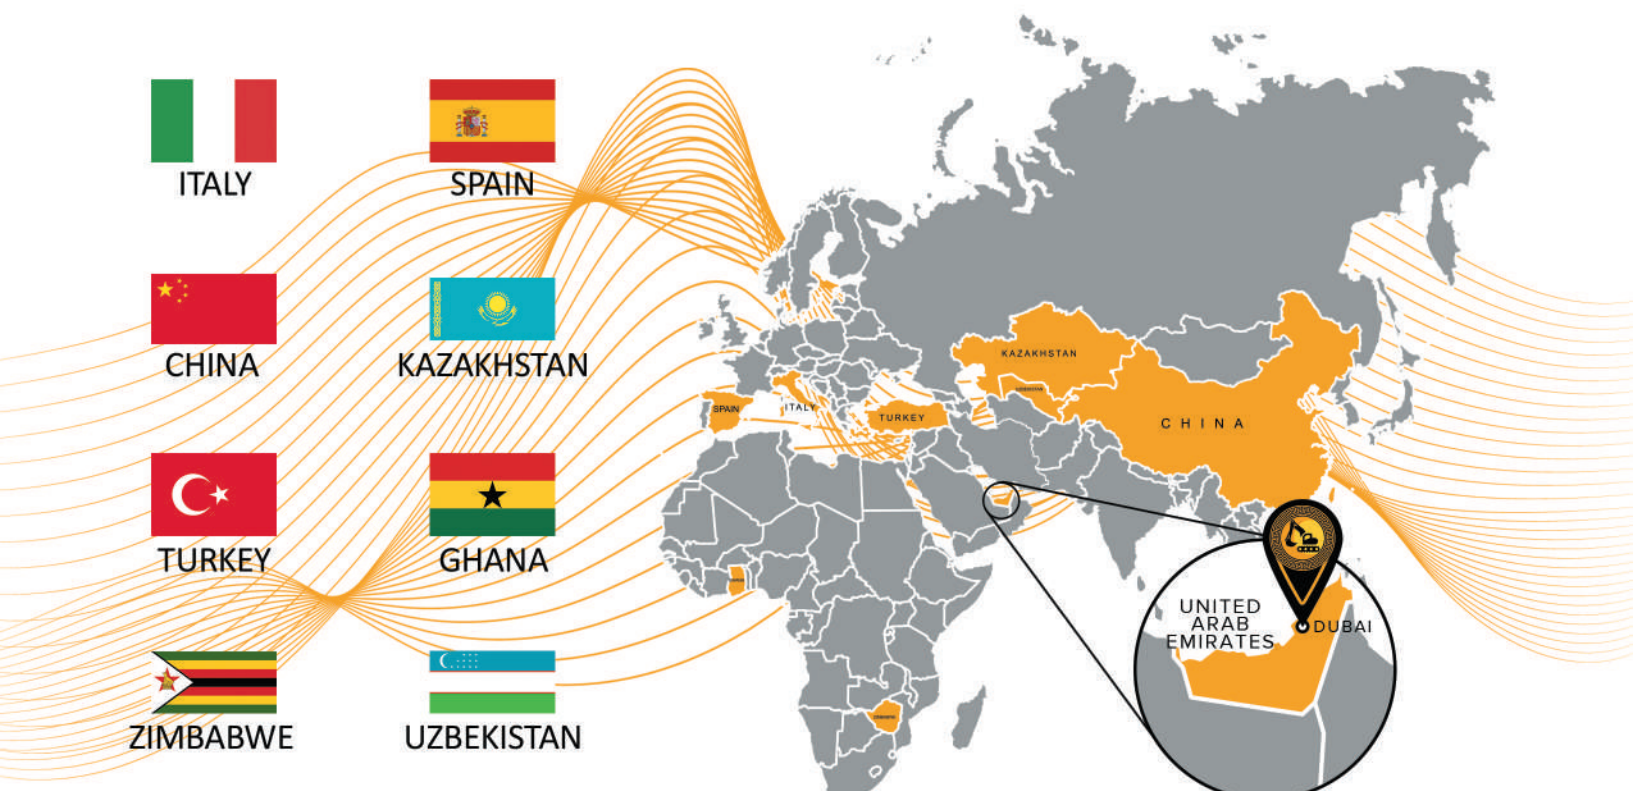

Our company has extensive experience in this area, which allows us to meet the needs of our customers and ensure reliable operation and long service life of attachments.

We are proud of our achievements and strive for continuous improvement and innovation. We value our reputation and work with reliable and trustworthy suppliers only.

## OUR PARTNERS

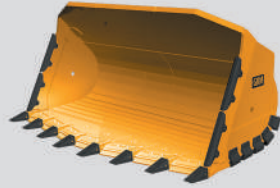

## GEOGRAPHY OF PRODUCTION SITES OF THE PARTNER PLANTS

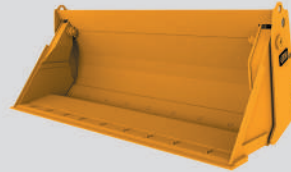

## CONSTRUCTION BUCKETS
